

Potential Governor Pen Portrait – Rakhi Sharma

I have 27 years of experience as a head of commercial for the UK region. It was time I wanted to give it back to the community. I wasn't confident enough to apply for this role as it was completely new and I had no experience. I had taught Engineering students, but that was a long time back. However, after visiting Rushmere Primary School I changed my mind.

I wanted to share my experience from being an average student to the position I am in. There was a big role of my school in developing to where I am. As a Governor I want Rushmere Primary school to be that platform for the children where we can provide those facilities to the students at minimum cost and risk.

I look forward to sharing my experience and supporting the Rushmere Hall School community.

Rakhi Sharma
