

## **Governor Pen Portrait – Becky Garland**

I have now worked at Rushmere Hall for 7 years and enjoy being part of the amazing team.

I have always been keen to have a wider reaching impact on the school.

I felt that becoming a governor allows me to utilise the wealth of experience I have gathered during my career whilst also being able to impact the school in a positive way. I have taught in almost every year group within the school and also have experience of secondary settings too. Over the last few years, I have led the R.E. Curriculum subject area and worked in year 6. Having an understanding of subject leadership and an awareness of the demands of year 6 means that I can really support and provide challenge around the new School Improvement Plan priorities.
