

## **Governor Pen Portrait – Aaron Eaton**

I have now been a governor at Rushmere Hall Primary School for five years. In this time I have been involved in the finance and premises sub-committee and have had a role working with the school across health and safety matters.

During my time so far it's been great to be able to help in any small way to the school's development and it's so pleasing to see the improvements that have taken place, and know we have the foundations to build on this in the future.

Aside from being a governor, I have two young girls who now both attend and are thriving at Rushmere Hall, whilst professionally I am an experienced senior health and safety manager in the utilities sector.
